REPAIR FORM

- Complete this form and include with the tools being sent in for repairs. If multiple tools are sent at one time, please fill out one form for each tool.
- It is recommended that you call the number listed above with part numbers and serial numbers prior to sending tools. This is to verify the age of tools and whether we can perform the repairs.
- Tools older than 10 years may not qualify for repairs, due to parts availability. Tools may also be rejected due to excessive damage or corrosion.
- Your returned product will be inspected by our repair department and you will receive an email or call back as soon as an assessment has been completed.
